Updating of BL.10.02
G. F. Clancy, M. A. Padlipsky

The following changes should be made to BL.10.02 in order to bring it up to date:

page	change
1	In point 2 of "Introduction", change "pagefault" to "page_fault"; change "interim-seqfault" to "interim_2_segfault".
3	Delete entire "Step 2".
4	Change "Step 3" to "Step 2". Delete entire discussion of "The Interim Fault Interceptor"; there is no interim fault interceptor.
5	The calling sequence in the second paragraph on the page should read `call interim_2_segfault(scuptr, dbrpt, ringno, errcode);`
